in SHARE 2

Rome - **d'Amico** Group, the leading global shipping Group, has received a nomination in two categories of The Lloyd's List Global Awards 2015, the Ship Operator Award and the Intelligence Big Data Award. **d'Amico** Group claims a long and storied tradition as a family business founded in 1936 and has developed a worldwide presence over the years with offices in the most important operating and financial maritime mercantile centers. Experience, competence and responsibility, together with a strong focus on the client, attention to operational safety and protection of the environment, are **d'Amico** Group's core values. **The first category, the Ship Operator Award, takes into consideration the players with exceptional performance in ship operations, and focuses on five key aspects: business development, safety, efficiency, reliability and profitability.** **d'Amico** Group has put a lot of effort to reach said excellence, and this is shown especially by the continuous investments in an innovative fleet made up of "Eco vessels" and in new technical solutions to manage efficiently the loads and reduce CO2 emissions. The second nomination, for the Intelligence Big Data Award, is about the impact of information and analysis to transform shipping, considering their impact on performance monitoring and optimization, as well as on condition-based and predictive maintenance. **d'Amico** Group has seen the potential given by big data to optimize every operative aspect, and implemented in its fleet InfoSHIP EGO, a powerful system designed for

global management and continuous monitoring of the energy cycle on board. Thanks to this, **d'Amico** Group showed that data collecting and monitoring is the best way to improve the energy efficiency of a fleet and made a step forward in the culture of energy saving. The Owners Cesare and Paolo **d'Amico** commented, "We are delighted to be nominated in even two categories at the Lloyd's List Global Awards 2015, because it proves the efforts we are putting in new solutions to make our fleet and operations as efficient as possible. This prestigious award nominations are the natural consequences of our will to better our Company, by focusing on innovation and optimization of instruments and procedures. For some, the awards might be seen as an arrival point, for us they are a boost for further improvement."
